Financial Aid Policy / Information

This financial aid policy has been approved by the United FC and KASL management boards. Agreement to this policy is confirmed by signing and submitting this form.

All information will be kept strictly confidential. Only the management board can approve financial aid. Aid cannot be awarded by coaches or directors. Financial aid will only be considered upon completion of this form, receipt of the prior year's federal income tax return, payment of the try-out fee and a minimum initial payment. Financial aid will be awarded only on financial information. Receiving aid during one year or season does not guarantee aid in future years. The initial minimum payment will vary depending on level and will be indicated on the fee matrix. The maximum amount of aid granted will not exceed 50% of the player's annual fee. Financial aid awarded to a player will be posted to a player's account. Payment plans can also be arranged for the balance of fees. If fees remain unpaid, a player's card may be revoked and the player may not be allowed to register in future seasons.

Additional volunteer time of one (1) hour for every \$50 of aid granted to each player. This can be completed at the annual tournament, try-outs or other activities deemed acceptable by the board. Financial aid may be revoked if this requirement or other membership commitments are not met by the player or parents.
